

9-Ball Scorekeeping

Scorekeeping & Defensive Shots Videos Available on YouTube! If you need a little refresher on

8-Ball or 9-Ball scorekeeping, or if you're new to the APA, visit our YouTube Channel at youtube.com/apaleagues to check out the instructional videos. You'll also find a segment on Marking Defensive Shots—one of the keys to proper scorekeeping.

Using the line of numbers, keep track of the balls (points) as the shooter is making them.

Skill level points each skill level needs

9-on-the-break — Break-and-Runs should be marked in this column.

DEAD BALLS
Keep track of any balls not credited to either player. You should account for these balls to avoid confusion.

Balls 1 through 8 count as one point each.
The 9-ball counts as two points.

In the 6th game player one had 37 points. In the 7th game we see that he broke the rack and made the 9-on-the-break, which gave him 39 points and the match. Player one is a SL5 and his highest possible points are 38. In the total points block you will record 38.

A defensive shot must be marked for a player on any shot where there is no INTENT to legally pocket a ball of his category. At the end of the match, total and circle the number of defensive shots for each player. If there are no defensive shots in a match write "No DS" in the block.

Update the overall Team score in the Running Total box.

THE SKILL LEVEL OF THE PLAYER WHO LOST IS USED TO DETERMINE THE MATCH POINTS WON.

The sample scoresheet above shows that player two, who is a SL3 lost the match. To award the match points earned, we need to look for his skill level on the Score of Match chart. The area circled above shows that if a SL3 lost and his score for the match was 21, the match points are 13-7. You will record 7 points for player two and 13 points for player one.
